WHY DYSTIL STUDENTS

Everything needed to become career ready

Learn from experts, practise with real tools, build project evidence and present your skills with confidence.

01

Practical AI Learning

Understand how AI is used in real business roles - not just theory.

02

Career-Focused Training

Build skills linked to your degree, field and target role.

03

Live Project Experience

Work through guided projects that strengthen your portfolio.

04

Mentor Support

Get direction from practitioners who understand industry needs.

05

CV & Job Guidance

Learn how to present your projects, tools and experience.

06

Certificate Value

Receive a completion certificate to support your CV and LinkedIn.

Ready to choose your path?

Explore bootcamps and see which experience fits your career goal.
